

The goal of this tool is to provide a nationwide dashboard of upcoming federal contracting opportunities. All projected procurements are subject to revision or cancellation. Final decisions on the extent of competition, small business participation, estimated value, or any aspect of the procurement are made if/when a solicitation is posted to [SAM.gov](https://sam.gov). Forecast data is for planning purposes only and is not a commitment by the Government to purchase the described products and/or services. Address questions regarding a planned procurement to the point of contact listed in the record.

Forecast Tool ONLY to [forecasthelp@gsa.gov](mailto:forecasthelp@gsa.gov).

## **Budget and Planning Application (BAPA) Professional Services**

The General Services Administration (GSA) is seeking support to set up and configure this budgeting solution, for purposes of this implementation. The implementation should support more than 600 users within GSA's OCFO and the programs. 20 of these accounts should have administrative/super user rights to the system that provides escalated privileges to adjust the models used to formulate the budget as well as manage the other users edit/security rights. GSA is seeking support to set up and configure the requirements, related to cost center and project planning, labor planning, revenue planning, allocations, analytics, reporting and more.

## **EUAS AMS/ION SOM/Waste Billing Modernization**

The General Services Administration's (GSA) Office of the Chief Information Officer – Office of Public Buildings Information Technology Services (PB-ITS) in support of the PBS Office of Facilities Management (OFM) and Office of Financial Management (OCFO), 1800 F Street, NW, Washington, DC, seeks to acquire a new Cloud-based, commercial-off-the-shelf (COTS) enterprise-wide solution that includes hosting, licensing, configuration, data architecture, integration, and support services for an advanced metering, utility and waste data tracking, and utility invoice processing system. The Government intends to award a single-award task order to replace existing applications and services: Energy Usage Analysis System (EUAS), Advanced Metering System (ION EEM), the solid waste module of the GSA's Sustainable Operations and Maintenance (SOM), and

the service for processing of utility invoices for payment. The solution will provide a single integrated environment to be managed by a single Offeror.
