

Proposal Support from Bluedog *powered by Workbench*

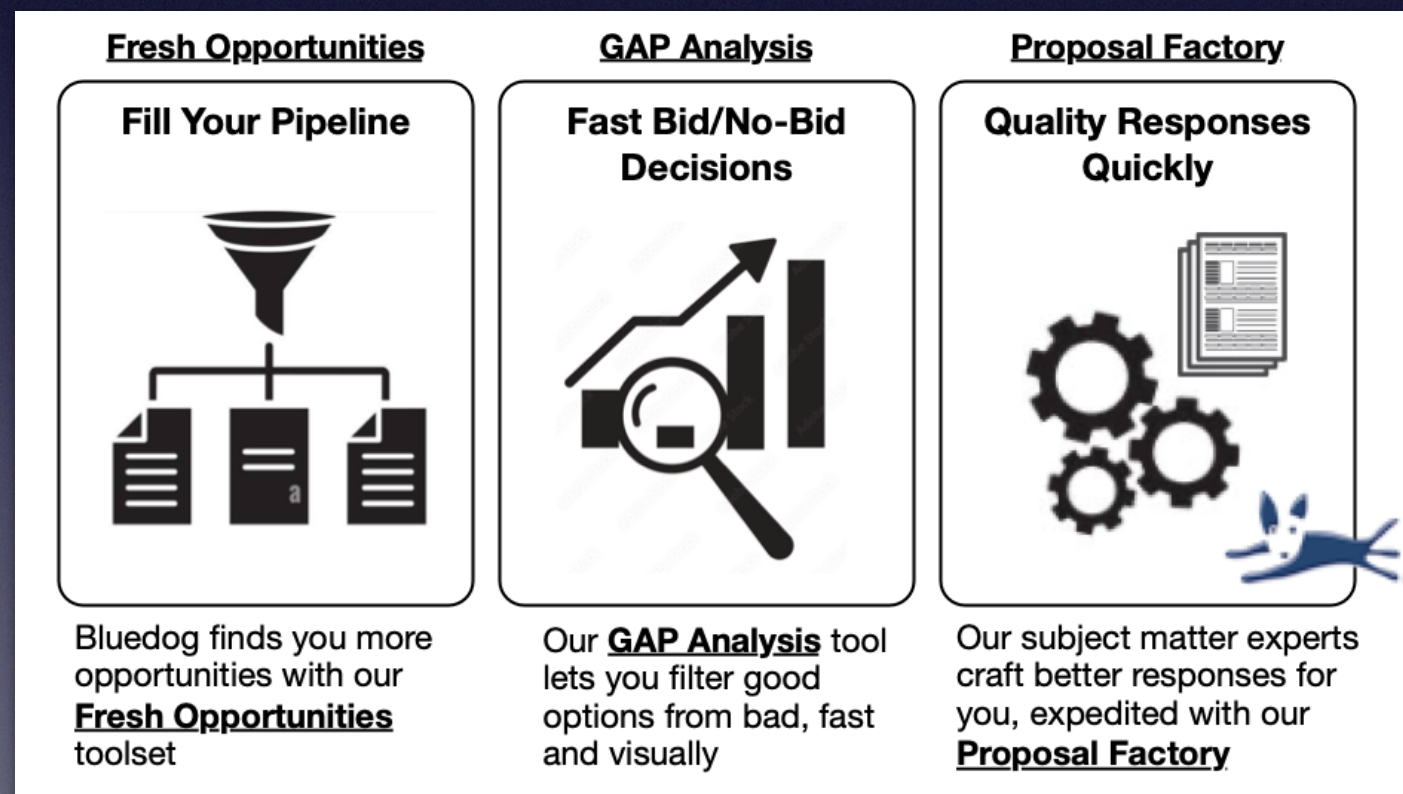

www.bluedog.net

Proposal Support from the Experts

Bluedog provides pipeline and capture management, bid decision support, and proposal writing services — made easy and efficient with our suite of automation tools and cloud-based collaboration platform, **Workbench**.

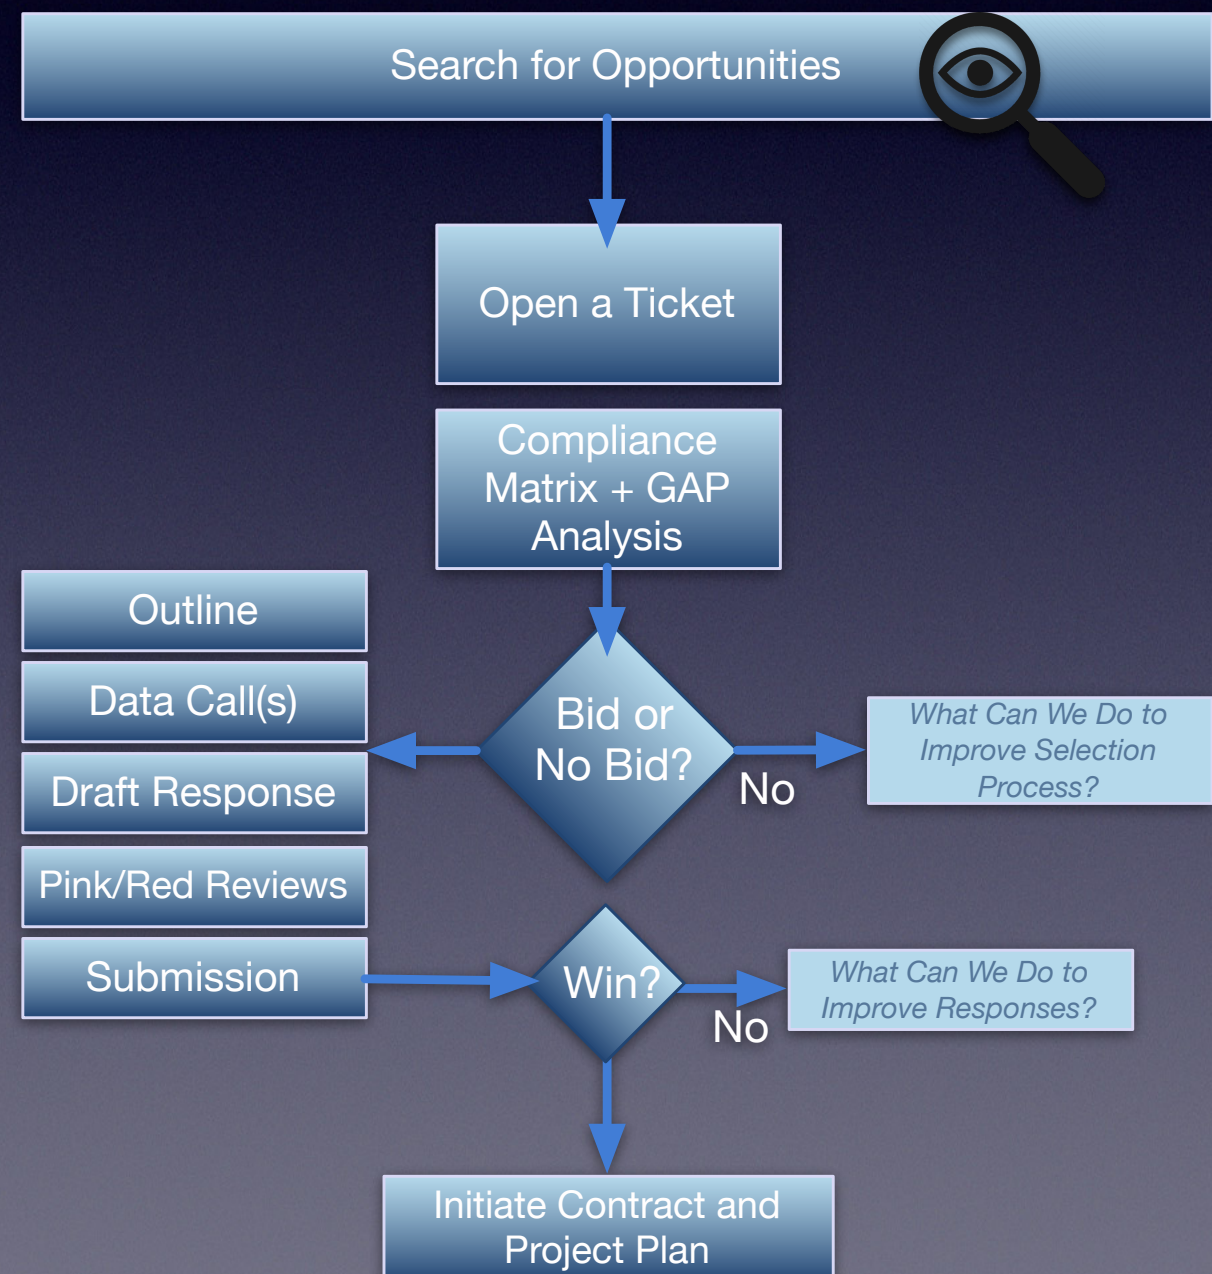

On-Demand Support

The process is simple: find opportunities, request a GAP analysis, then make your bid/no-bid decision — we handle the rest.

Bluedog then develops the response outline, makes data calls, and assembles a draft for review. Our SMEs write content as needed, and our editorial quality control ensures a “single voice” and full compliance for a winning submission.

As your virtual proposal team, we coordinate with subcontractors and manage the entire proposal process in **Workbench**.

Cloud-based collaboration for your proposal team

Sign into your company dashboard — **Workbench** provides a single place to manage opportunities and proposal work-in-process.

The screenshot shows the Workbench dashboard for a project titled "Government Marketing In Progress". The dashboard includes a navigation bar with links to Opportunities, Knowledge Base, Projects, Support, and My Shared Folder. Below the navigation bar, there are tabs for Overview, Tasks, Files, Discussions, Gantt, and Tickets. The Overview tab is selected, showing a table with project details: Project # 7, Status In Progress, Start Date 2022-03-01, and Deadline 2022-08-30. To the right of the table, there is a "Project Progress" section with a donut chart showing 73% completion. Below the chart, there are two progress bars: "5 / 19 OPEN TASKS" (73.68%) and "109 / 182 DAYS LEFT" (59.89%). At the bottom, there is a "Description" section with the text "Government marketing services - pipeline, capture, RFIs, responses to RFPs, and other services."

For each opportunity, we provide you the reports to make your bid decision — quickly

Collaborate on the proposal response process

Once a proposal effort has been kicked off, we manage the document development, writing and editing of technical content, and all the steps to get a winning proposal submitted — whatever the deadline.

Production

Complete	Checklist Item	Owner	Due Date/Time
✓	Before Production Day		
	Take inventory of supplies (e.g. , shipping box, packing tape, packing peanuts, brown paper, bubble wrap, labels for box/packages, padded envelope for CD, CD jewel cases, re-writable CDs, binders in various sizes take 20 min)		Week Before

Bluedog Untitled Etherpad Document (27.2kB)

Etherpad is a web-based document editor which enables you to collaborate on documents, comment them and interact with others using an integrated chat. Provides you with simple text formatting features like font type, size, color and style, text alignment. You can import an existing document into Etherpad and export the current "pad" as a HTML file, Markdown or plain text. Written in JavaScript, it can be easily customizable and embedded as an iFrame into a HTML webpage.

Available for Windows, Linux and Mac OS X
