

Intro Questions

Services Multi-Agency Contract (MAC) RFI 2

The U.S. General Services Administration (GSA) seeks feedback from industry on the development of a new Services Multi-Agency Contract (MAC). The Services MAC will enable the federal government to obtain services-based solutions from highly qualified businesses. GSA created the following survey to identify service provider capabilities and their alignment with anticipated requirements. Indicate only experience that you have performed.

The scope of the new Services MAC includes multiple services. It is not expected that industry providers be capable of providing all of the services being considered. Questions specific to systems, certifications and credentials may not necessarily be associated with a particular domain. Knowledge gained from this survey will be used to level set industry capabilities relevant to specific scope areas. Therefore, we ask you to answer for every Domain where you're interested in participating in, but not be concerned if there is a capability that your company does not possess. Recognizing the effort it takes to respond to this Request for information (RFI), GSA appreciates and will consider any responses interested parties are willing to provide through this survey, even if all survey questions aren't addressed.

This survey will remain open through 5:00 p.m. Eastern Time on June 21, 2021. Any questions relating to this Request for Information (RFI) should be directed to pshc-dev@gsa.gov.

Experience Questions

Experience

GSA's intent is for the Services MAC to be one contract organized by Domains. A Domain represents a grouping of related functional areas that encompass multiple NAICS codes. Domains are designed to align order requirements to qualified

industry partners. Please review the document below to learn more about the potential Services MAC Domains.

[Services MAC Domains Summary](#)

The following section asks questions about your company's relevant experience projects. For reference, an experience project is a:

- Stand-alone contract or subcontract; or
- Task Order awarded under an Indefinite Delivery, Indefinite Quantity (IDIQ) contract, Multiple Award Schedule (MAS), Blanket Purchase Agreement (BPA), or Basic Ordering Agreement (BOA). For market research purposes, the indefinite quantity master contract (e.g., IDIQ, BPA, etc.) is not considered a project in and of itself; and
- Some portion of the period of performance occurred within the last five years

As a prime contractor, what is the maximum number of full-time equivalents (FTEs) your company has employed (including prime and subcontractor FTEs) on a single contract?

- ☐ 1-25
- ☐ 26-50
- ☐ 51-100
- ☐ 100+

What is the maximum estimated number of full-time equivalents (FTEs) your company has employed (including prime and subcontractor FTEs) across all contracts simultaneously?

- ☐ 1-25
- ☐ 26-50

- ☐ 51-100
- ☐ 100-500
- ☐ 500+

What is the highest annual dollar value of an integrated project - meaning a project spanning across three or more government-wide categories ([Reference](#)) - that your company has performed?

- ☐ N/A
- ☐ SAT (\$250K) - \$1M
- ☐ \$1M - \$5M
- ☐ \$5M - \$10M
- ☐ \$10M - \$25M
- ☐ \$25M - \$50M
- ☐ \$50M+

What number of unique labor categories on a single contract makes you consider a project complex? Please only input numbers into the text box below.

Does your company have experience performing as a prime contractor for a major acquisition as defined in [OMB Circular A-11, 7, Capital Planning Guide Supplement](#) as a capital project that requires special management attention because of its: (1) importance to an agency's mission; (2) high development, operating, or maintenance costs; (3) high risk; (4) high return; or (5) significant role in the administration of an agency's programs, finances, property, or other resources?

- ☐ Yes (please provide contract number):

☐ No

Does your company have experience providing surge support (e.g., >10% temporary increase in level of effort) on a services contract?

☐ Yes

☐ No

As a prime contractor, does your company have experience managing multiple subcontractors on a project?

☐ Yes

☐ No

What is the maximum number of simultaneous locations your company has performed on a single contract or task order? For reference:

- Locations are generally considered distinct based on unique Metropolitan Statistical Area (MSA) codes (ref. column D on the BLS [May 2020 Metropolitan and Nonmetropolitan Area Definitions](#))
- Any OCONUS locations can be considered a single location at the Metropolitan city level
- Performance generally includes at least 30 days of performance
- Virtual/remote work would not be considered distinct locations

Facilities Services Domain Questions

Facilities Services Domain

Services in this domain include any and all services required to maintain and operate buildings, paved services, utilities infrastructure, and real property assets and equipment. This could include major facilities support such as DOD installations, hospitals, cemeteries, and other federal or industrial real property, but does not include major construction. GSA will ask about a wide range of services found in facilities contracts that may not be inherently facilities work. We are including them because of their historical use, but are also trying to determine what commercial practices are in this space (i.e. the reasonableness of including these services on a facilities contract). We seek your feedback on defining Domains and the services included.

For the services listed in this domain, indicate whether your company has performed the work on a facilities contract only, either as a prime, or as a

subcontractor. As mentioned, we will use the responses from this to determine which services are reasonable to include within the Domain, so do not select a choice unless you have actually performed this on a contract, or it may skew assumptions about what are actual commercial practices.

Second, there have been many discussions about Base Operations Support as a Domain. For this market research effort, GSA is partnering with the Air Force Base Operating Support Program and other military partners to define and determine commonality within the scope of Base Operations Support (BOS) as a Domain. However, GSA recognizes that facilities management services may largely be the same as BOS, and is therefore, combining the facilities and BOS Domain questions for this RFI. As such, please respond to this Domain if you provide any facilities services regardless of your specific agency experience.

We are partnering with the Air Force on market research efforts to leverage economies of scale and to simplify and streamline the industry burden required in responding to multiple agency requests for the same information. The information collected from this RFI will be retained for use by both GSA and the Air Force.

Technical & Engineering Domain

Technical and Engineering Domain

This Domain includes requirements to provide specific engineering, geoscience, or other technical professional skills - such as those performed by engineers, geologists, geophysicists, and technicians - required to handle specific operating conditions and problems for the benefit of the Government. Work under this Domain typically involves the application of physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems; and providing expert advice and assistance on technical functions and issues.

Are there any other services that you would like GSA to consider for the scope of GSA's new Services MAC?

GSA is interested in understanding the cost to industry when responding to multi-agency IDIQ solicitations. Please provide the estimated cost of resources - including bid and proposal costs and consultant fees - typically expended in response to this type of solicitation. This information will be used to identify any potential efficiencies that can be built into the source selection process. Please only input numbers into the text box below.

What barriers have prevented you from winning an IDIQ contract and/or experiencing success at the task order level?

Please provide any additional comments you would like to include with your submission:
